

easyLIFE Pension - Performance formula

Type of life insurance	easyLIFE Pension - Performance formula is a retirement insurance contract, the return of which is linked to unit-linked investment funds.
Guarantees	<p>Main guarantees</p> <p>If the insured person is alive at the end of the contract, they may opt for an outright payment of part or all of the capital, with the remainder being paid in the form of a monthly life annuity. The accumulated savings correspond to the counter value of the account units held in the policy. The amount of units held depend on the payments (net of entry fees) invested in the chosen fund. The number of units held changes in accordance with the payment of the future premiums.</p> <p>In the event of disability or serious illness in accordance with the provisions of the Grand-Ducal Regulation relating to Article 111bis of the L.I.R., the insured person can opt for the payment of a reduced immediate pension based on the savings accumulated at that time.</p> <p>In the event of death of the insured person before the end of the contract, the beneficiary will receive the savings accumulated until the time of death.</p> <p>This type of contract is commercialised as a single life policy.</p> <p>Note: the term of the contract (i.e. when the pension will be paid) is fixed at the earliest at age 60 and at the latest at age 75.</p>
Target audience	This product is intended for clients wishing to take advantage of the tax deductions offered by Art. 111bis of the L.I.R. and receive the entire return of the investment funds in which they have chosen to invest their savings, while accepting the risk of a possible capital loss.
